UMAX PowerLook 2000 Received 5-Diamond Rating

UMAX PowerLook 2000 pre-press flatbed scanner received a 5-Diamond rating, the highest offered by MacWeek magazine in its August '96 issue.

Aimed at pre-press and graphic design users, it competes directly with Agfa and Linotype-Hell. While quite similar in performance to Agfa's Duo Scan, the PowerLook stands out with its powerful and useful bundled software. It comes with a full-featured Adobe Photoshop plug-in. The PowerLook 2000 scanner gives excellent results on any original that falls within the scanners dynamic range. Its resolution is high enough to get usable results even from 35mm originals. For further details please call : 9559407, 9554592.
