Sony launches new smartphones, Xperia Z2 tablet

Sony recently announced a slim, light and waterproof Android-based Xperia Z2 tablet and two new Xperia smartphones at the launch of Mobile World Congress. The 10.1-in. high-definition display tablet and the high-end Xperia Z2 smartphone, with a 5.2-in display, will be

available globally in March, while the Xperia M2 with a 4.8-in display, will ship in April.

Pricing was not announced, although Sony said the M2 will sell at a ‘mid-range’ price to reach new buyers, such as those moving from feature phones to smartphones for the first time. The tablet and the Z2 run KitKat (Android 4.4), while the M2 runs Jelly Bean (Android 4.3). Also at MWC, Sony plans to reveal more details of its Core sensor for use in wearable devices such as the SmartWear product line. The SmartBand works with a new Lifelog fitness app on a smartphone, including the new Xperia Z2.

Sony introduced its Core technology at International CES in January. A month later, Sony announced it was selling off its struggling Vaio PC business, and anticipated a \$1.1 billion loss for the fiscal year ending in March.

Sony’s latest forays into mobile products are seen as an attempt at a rebirth for the 60-year-old Japanese electronics giant. Wearable devices are where Sony could do best, since the market is

young. Sony ranks seventh in smartphones shipments globally with a 3.8% market share, according to research firm IDC. In tablets, Sony hasn’t broken into the top 15 and holds less than 1% of the market, IDC said, reports networkworld.com. The Xperia Z2 Tablet is described as the world’s slimmest (0.25 inches thick) and lightest (15 ounces) of the waterproof tablets on the market, and is designed to be comfortable to hold in one hand ■

Corrigendum

Here is a kind information for all of our reputed readers that all of you know well that Computer Jagat in co-operation with Ministry of ICT and Bangladesh High Commission in London arranged ‘UK-Bangladesh e-Commerce Fair, London’ on 7-9 September, 2013 at Millennium Gloucester Hotel London. On that occasion we published a souvenir and in this publication we published the profile of our partners, where one of our partners was ‘Team Engine’, a campaign & communication hub for social good. But unfortunately in the related profile title ‘Team Engine’ has been wrongly printed as ‘Federation of Bangladesh Chambers of team engine’ (Page, 19 of the Souvenir). We are extremely sorry for the wrong doing. So we request our readers to read the title as ‘Team Engine’ in place of ‘Federation of Bangladesh Chambers of team engine’ ■
