

Samsung Launches Bangladesh's First QLED Gaming Monitor

Samsung Electronics has recently launched Bangladesh's first QLED gaming monitor. It is the most curved monitor in the world with a radius of 1800R, providing a more comfortable and an immersive gaming experience to gamers. The QLED gaming monitor comes with a host of exciting features like 144 Hz refresh rate and 1ms response time, making it a perfect delight for gamers in Bangladesh. With the introduction of Quantum Dot technology, the monitor offers a level of picture quality like the industry has never seen before. The monitor was launched with Samsung's authorized distributor of IT products Smart Technologies Limited in Dhaka.

Those were present at the event include: Seungwon Youn, Managing Director, Firoze Mohammad, Head of Consumer Electronics, Badiuzzaman Apu, Business Lead, Monitor Business of Samsung Electronics Bangladesh and Mohammad Zahirul Islam, Managing Director from Smart Technologies Limited.

Speaking on the launch, Seungwon Youn, Managing Director, Samsung Electronics Bangladesh said 'Gamers are demanding advanced display technologies in monitors in order to experience every nuance of a game. There is a need for better monitors for enhanced gaming experience in the country. At Samsung, we are committed to offer our customers the very best of features and technology. The launch of this QLED gaming monitor is a step in that direction and I am sure that it will be a trend-setter in the gaming zone.'

Designed specifically for professional and hardcore gamers, the C24FG70 & C27FG70 QLED gaming monitors unite the visual refinement of Samsung's Quantum Dot picture technology with the comfort and widespread view of its QLED gaming monitors to create the ultimate gaming experience. Samsung QLED monitors C24FG70 & C27FG70 will be available in ₳ 38,500 BDT and ₳ 49,500 respectively.

FAST SPEED AND SMOOTH GAME PLAY

By combining Samsung's advanced motion blur reduction technology with its VA panel, the C24FG70 & C27FG70 are the first QLED gaming monitors to produce a 1 ms moving picture response time (MPRT).

QUANTUM DOT TECHNOLOGY

Samsung's QLED gaming monitor comes with the Quantum Dot technology which enables more vibrant and natural colours. The overall affect is an incredible true-to-life picture on screen. Quantum Dot display curved gaming monitor creates an unprecedented visual experience that no gamer has ever experienced.

GAMING AT THE NEXT LEVEL

The C24FG70 & C27FG70 QLED gaming monitors are designed with gamers in mind with a range of user-friendly gaming UX that drives more convenient and easily-accessible game management ♦

Partners from 145 Countries Join Microsoft Inspire

New enterprise bundle Microsoft 365 unveiled

To recognize top Microsoft partners demonstrating excellence in innovation and implementation of customer solutions based on its technology, Microsoft held its annual conference Microsoft Inspire from July 9 to 13 in Washington, D.C.

Microsoft acknowledged partners in 34 categories celebrating each of the core partner competencies, including cloud technology, public sector, Microsoft Philanthropies and many more. The award finalists and winners were selected from more than 2,800 nominations collected from 115 countries worldwide based on their commitment to customers, their solution's impact on the market and exemplary use of Microsoft technologies. Aamra Technologies Limited was announced Microsoft Country Partner of the Year 2017 for Bangladesh. The company was honored among a global field of top Microsoft partners for demonstrating excellence in innovation and implementation of customer solutions based on Microsoft technology.

"What makes Microsoft unique is our focus on empowering people and organizations, worldwide, in every industry, in every vertical, in every country. This is our mission together, but we don't celebrate technology for technology's sake. Our success is in our customers' success," said Microsoft CEO Satya Nadella during his keynote at Microsoft Inspire.

Microsoft partners employ 17 million people around the world, and Microsoft has 64,000 partners working in cloud services. At the partner conference, the company also introduced Microsoft 365 — a product and vision for how it delivers new experiences for the customers, focused on creativity and teamwork, and built on a simple and secure platform that draws from the best of Microsoft's commercial products across Office 365, Window 10 and Enterprise Mobility and Security ♦
